

At The Manors we are dedicated to providing excellent care. Whether we are supporting you in short-term rehabilitation or long-term care, your comfort and independence are our focus.

Our centers serve their communities by providing localized health and specialty programs to meet the needs of their respective residents. Our goal is to help you enjoy life by providing services that comfort, motivate, and heal.

REHABILITATION SERVICES

At The Manors your rehabilitation and well-being are our focus. When your doctor recommends surgery, we are here to help you recover. Our therapy teams, overseen by rehabilitation physicians, specialize in helping you get well.

Our therapists provide therapy 7 days a week to help you reach your goals. Our advanced pain relief methods provide state of the art care for your comfort.

We provide a holistic approach to therapy including spa treatments, aromatherapy, and the Arthritis Foundation's Tai Chi exercise program. The Nintendo Wii® game system is used as part of our therapy program to increase mobility while having fun. We use "Light Therapy" to provide temporary relief of muscle and joint pain, arthritis, and muscle spasms to help you get the most benefit out of therapy.

HEALTHY EATING

Our dietitians teach you how the foods you eat can affect your blood sugar and your overall health by working with you to create a healthy diet plan and by determining which food choices are best when dealing with diabetes and other health issues.

MEMORY CARE

Our dementia and Alzheimer's program, celebrated by families and physicians, helps our dementia residents communicate. Our staff is specially trained to work with individuals with memory problems. Our memory care units are different from others because they have been scientifically developed to help the individual become an active part of the community. The secure units keep your loved one safe, while helping them lead a life of purpose.

As part of our memory care program, we use aromatherapy, combined with special soothing music, to help restore peace and relieve insomnia and pain.

VACATION CARE

Overnight care is available for loved ones allowing caregivers a time to rest or take a well needed vacation. Services include bathing, dispensing medications, daily activities, and memory care.

Your health is our key focus. Our physicians, who specialize in a variety of areas including rehabilitation, heart, kidney, and lung disease, along with our dedicated nursing and support team, provide state of the art care including:

- Rehabilitation Therapies
- Wound Care
- Respiratory Support
- Post Surgical Care
- IV Therapy
- Diabetic Care
- Renal Dialysis Support
- Memory Care

As a faith based company, our mission goes beyond the physical to the spiritual, emotional, and social aspect of life. We encourage participation in the community through our not-for-profit organization which provides food to the hungry, clothing for the needy, and school supplies for the children in our neighborhoods. Our centers actively participate in local events that support worthy causes.

WE HAVE YOU COVERED

We are here to assist you. For your convenience, we accept Medicare, Medicaid, and most major insurances.

The Manors operate short and long-term rehabilitation and skilled nursing centers throughout Michigan. Through our state-of-the heart care and support centers, we focus on helping you heal by providing the best care possible for your short and long term needs.

The Manors are overseen by Advantage Management Group (AMG), a Michigan based firm that specializes in the management of skilled nursing and assisted living centers.
